

July 2010

TAIWAN EXISTING CHEMICAL SUBSTANCE NOMINATION

Cabot CAB-O-SIL® and CAB-O-SPERSE® UNTREATED SILICA PRODUCTS ONLY

The Council of Labor Affairs (CLA) is in the process of developing its National Existing Chemical Substance Inventory. Existing Chemical Substance (ECS) Nomination guideline requires manufacturers and/or importers of chemicals to nominate those substances in accordance with the procedures and timelines prescribed within the guideline. Cabot Corporation is committed to continuing to supply our Taiwanese customers with our untreated silica products.

To assist our customers, we provide the following information:

Untreated Silica (CAS #112945-52-5) meets the definition of “substance” under paragraph 2 of the Existing Chemical Substance Nomination guideline.

Cabot certifies it has completed successfully the nomination process required to cover all untreated silica products imported to Taiwan and produced in worldwide Cabot facilities. **Please accept this statement as certification of nomination of our untreated silica products.**

This information is being provided as of the date hereof. Please refer to Cabot's website – www.cabot-corp.com - for any updates to this information.

CAB-O-SIL® and CAB-O-SPERSE® are registered trademarks of Cabot Corporation.
