

BLACK PEARLS® 420

BLACK PEARLS® 420 is an all purpose regular color pigment black with high structure, allowing for easier dispersion in a variety of applications.

Product Form: Pellet

Application Information

Printing Inks

BLACK PEARLS 420 is a high structure general-purpose pelleted pigment black that is broadly applicable in a variety of inks. It is particularly well suited for aqueous based flexographic inks for publication and packaging. This carbon black provides blue tone with good jetness.

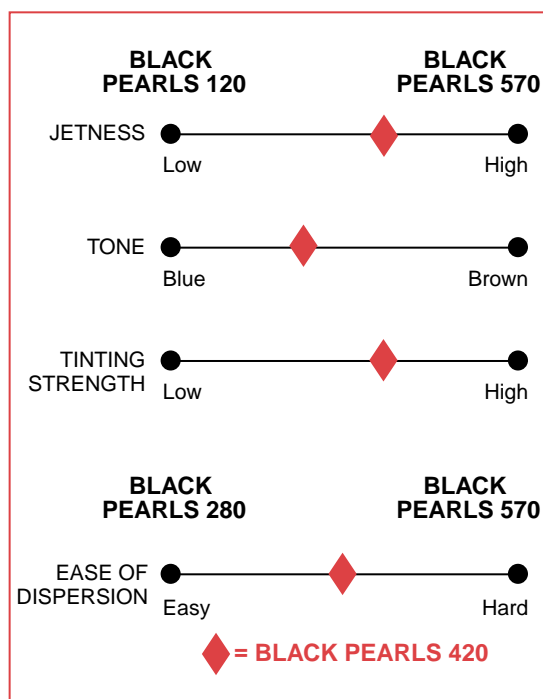

Other Applications

This pigment black is used also in General Dispersions for applications requiring modest pigmentation.

The dispersibility of BLACK PEARLS 420 pigment black depends on the equipment used and the formulation. In general, this carbon black grade is easier to disperse compared to products with lower structure in the regular color range.

BLACK PEARLS 420 is a pelleted pigment black with a typical bulk density of 22 lb/ft³.

Performance Comparison to Other Low Color Pigment Blacks

Packaging Options

Multi Unit	Intermediate	Bulk
50 lb paper	40, 50 cu. ft	Available
25 kg paper
