

March 2011

Impurity Information Cabot Aerogel Products*

Aerogel products are not analyzed for the presence of the impurities listed below. Cabot Corporation does not use any of these substances in the manufacture and handling of its aerogel products.

Therefore, these substances are not expected to be present in aerogel products above trace concentrations.

Impurities

- Brominated hydrocarbons and flame retardants, such as polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE)
- Heavy metals, such as lead, cadmium, mercury, and hexavalent chromium,
- Biocides, such as Dimethylfumarat (DMF)

This information is being provided as of the date hereof. Please contact Cabot's Aerogel business for any updates to this information.
